

ATN Street Signage

ATN's Street signs are one of the key ways people learn about, and are hopefully encouraged to attend, All Things New. ATN street signage serves both to direct people to our worship service and to make people aware of our presence in the community.

Volunteer Guidelines:

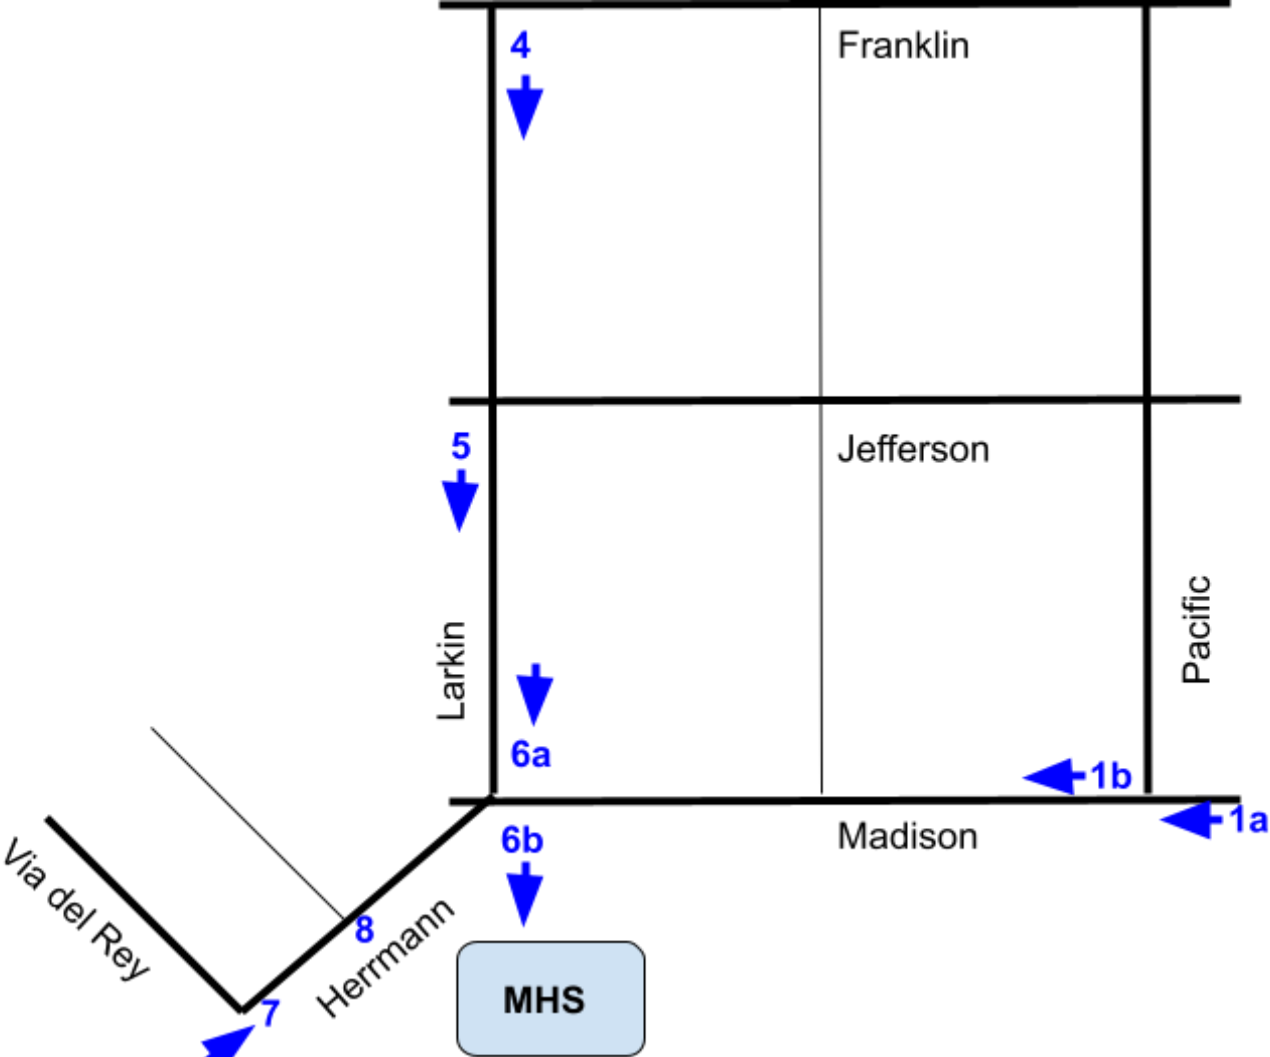

- Signs are stored in the storage bin below the deck at the Zwagerman's home (42 El Caminito del Norte, Monterey). The bin has ATN's logo on it.

- Signs should be set up no later than mid to late afternoon on Saturday and are placed according to the map. They are to be removed immediately after our Sunday service.
- In placing the signs, take care that you have pointed the arrows in the correct direction to lead guests to the campus, not from it.
- When removing the signs, report any missing or damaged signs to info@allthingsnew.church so that these signs can be replaced or repaired.
- *Always* return the signs to the storage bin from which you retrieved them in case someone other than yourself is scheduled or called upon to set up next week's street signage.
